NEUROSCIENCE AND BEHAVIORAL PHYSIOLOGY
Volume 23, Numbers 1-6, 1993

Engl.

Volume 23, Number 1, January-February, 1993

The Restoration of the Function of the Hypophyseal-Gonadal System Following Its Prolongaed Suppression by Luliberin Agonists - N. D. Goncharova, L. A. Mkhitarova, and É. M. Gogiladze 1

The Influence of the Intraventricular Administration of Naloxone on Stress-Induced Hormonal Reactions - É. K. Shkhinek, V. A. Lesnikov, E. E. Fomicheva, M. P. Lesnikova, and L. P. Dostoevskaya 6

Neuronal Analysis of Hunting Behavior of the Pteropod Mollusc *Clione limacina* - T. P. Norekyan and R. Satterlie 11

The Neurochemical Basis of Backward Inhibition in a Defense Reaction Reflex Arc - P. M. Balaban, N. I. Bravarenko, and I. S. Zakharov 24

The Role of the Specific and Nonspecific Afferent Systems in the Mechanism of Changes in Evoked Cortical Responses in the Presence of Vibration - S. M. Minasyan, O. G. Baklavadzhyan, S. G. Saakyan, and Ts. I. Adamyan 29

The Chemical Nature of the Hypothalamocortical Activation Underlying Drinking Behavior - A. S. Batuev and B. G. Gafurov 35

The Features of the Influence of "Reward Areas" on the Electrical Activity of the Parafascicular Complex of Nuclei in the Developing Rabbit - I. P. Butkevich and V. G. Kassil' 42

Specific Features of the Electroretinogram of Vertebrates Induced by X-Rays - B. N. Savchenko 49

An Investigation of Certain Physiological Mechanisms of the Neurohumoral Regulation of Vascular Tone - O. G. Baklavadzhyan, M. S. Akhverdyan, A. G. Darbinyan, V. S. Eganova, A. G. Mkrtchyan, and I. Kh. Taturyan 56

Tne Influence of Picrotoxin on the Methylation of Phospholipids of the Olfactory Cortex of the Brain of Rats - I. A. Gerasimova, N. A. Emel'yanov, A. A. Mokrushin, and L. I. Pavlinova 63

Cyclical Processes in Neuronal Populations of the Cat Somatosensory Cortex During Extero- and Interoceptive Activation and in the Course of Its Extinction - V. V. Lavrov 66

The Action of Agonists and an Antagonist of Gaba on the Frequency Composition of the Electrical Activity of Various Brain Structures of Rats - A. V. Yarkov, V. V. Vorob'ev, and G. I. Kovalev 76

The Effectiveness of Amiridin in Senile Dementia of the Alzheimer's Type - E. E. Bukatina, I. V. Grigor'eva, and E. I. Sokol'chik 83

The Functional Activity of Cell Membranes in Multiple Sclerosis - P. V. Predtechenskaya and A. P. Ierusalimskii 90

The Epidemiology of Congenital Abnormalities of the Central Nervous System in Children - B. Ya. Reznik and I. P. Minkov 94

Postural Motoric and Cognitive Functions in Children with Dyspraxia - V. Ishpanovich-Radoikovich 97

An Investigation of the Topographic Organization of Cortical Electrical Activity during Hypnotic Analgesia - N. E. Sviderskaya, V. A. Karlov, G. V. Selitskii, and T. A. Korol'kova 101

Volume 23, Number 2, March-April, 1993

The Heightened Sensitivity of Hypophyseal Cells of Neonatal Rats to Corticosteroids - V. I. Gudoshnikov and V. P. Fedotov 107
The Morphofunctional State of the Supraopticoneurohypophyseal System of Rats in Hypoparathyroidism - D. N. Khudaverdyan, A. A. Astratyan, S. V. Vladimirov, and A. V. Svishchev 112
Structural Changes of the Human Embryonal Cortex During Explanation - E. B. Smirnov, V. F. Puchkov, and V. A. Otellin 115
The Serotoninergic Innervation of the Area Postrema - S. P. Semenov 118
The Projections of the Amygdaloid Body and the Dopaminergic Mesencephalic Formations to the Dorsal and Ventral Pallidum of the Cat Brain - A. I. Gorbachevskaya 124
An Hypothesis Regarding the Cortical Mechanisms of Operative Memory - A. S. Batuev 130
The Participation of Cortical Areas of the Brain in Processes of the Perception and Reproduction of Emotional States of Man - O. A. Sidorova and M. B. Kostyunina 135
A Computer Analysis of EEG-Intersignal Reactions during the Development of Motoric Alimentary Conditioned Reflexes in Dogs - V. N. Dumenko and M. K. Kozlov 142
The Influence of High-Frequency Stimulation of the Midbrain Reticular Formation on the Interaction of Neurons of the Neocortex - I. V. Pavlova 152
The Intercentral Relationships of Rabbit Brain Biopotentials during the Creation of a Blink Dominant - G. Ya. Roschina 160
The Influence of Acetylcholine and Atropine on the Temporary Connection in Neutronal Populations of the Motor Cortex - R. A. Chizhenkova 166
Eicosapolyynoic Acids, Inhibitors of Lipoxygenases, Weaken the Short-Term Plasticity of Cholinoreceptors of Neurons of the Edible Snail - A. S. Pivovarov, E. I. Drozdova, D. A. Zabolotskii, and G. I. Myagkova 176
Cholinosensitivity as an Indicator of Functional Differences of Neurons of the Cortex of Young and Old Rabbits - Yu. S. Mednikova and F. V. Kopytova 182
The Reactions of Neurons of the Sensorimotor Cortex of Rabbits to Stimulations of Various Sensory Modalities Against the Background of the Action of Actinomycin D, a Protein Synthesis Blocker - Yu. N. Samko 189
The Influence of Antibodies to Brain-Specific Nonhistone Chromatin Proteins on the Development and Reproduction of a Passive Avoidance Conditioned Reflex in Rats - V. V. Sherstnev and A. I. Gromov 192

Volume 23, Number 3, May-June, 1993

The Cellular and Fiber Organization of the Locomotor Areas of the Brain Stem of the Cat - T. G. Kebkalo and V. K. Berezovskii 195
The Plasticity of the Interneuronal Connections of the Cerebral Cortex - N. N. Bogolepov 201
The Formation of a Complex Skill in Black Sea Dolphins under Free Choice Conditions - Yu. D. Starodubtsev 210
The Assessment of the Strength of Interaction between Neurons of the Motor Cortex of the Cat in a Conditioned Reflex to Time - A. G. Galashina and A. V. Bogdanov 218
Theta Modulation of Neurons of the Hippocampus of the Rabbit and Its Interrelationship with Other Parameters of Spontaneous and Evoked Activity - O. S. Vinogradova, E. S. Brazhnik, V. F. Kichigina, and V. S. Stafekhina 226

Prolonged Postsynaptic Changes in the Sensorimotor Cortex of the Awake Rabbit in Response to Stimulation of Fibers of the White Matter of the New Cortex and the Corpus Callosum - A. G. Gusev, L. I. Antsiferova, and B. Eisenhaber 240
Characteristics of the Trace Reproduction of Rhythm by Neurons of the Sensorimotor Cortex of Rabbits in the Aftermath of Periodic Stimulation - F. V. Kopytova 248
The Disruption of Intracortical Interaction in Endogenous Depression - A. I. Avin 255
The State of the Renin-Angiotensin-Aldosterone System in Patients with the Neuroendocrine-Metabolic Form of the Hypothalamic Syndrome - V. N. Slavnov, V. V. Markov, V. M. Rudichenko, E. V. Luchitskii, and V. A. Oleinik 258
The Restoration of Locomotion Following Double Ablations of the Motor Cortex and Heterotopic Transplantation of Cortical Tissue in the White Rat - N. I. Vereshchak 263
The Functional Plasticity of Cells of the Paraventricular Nucleus of Surviving Sections of the Hypothalamus - A. A. Mokrushin and N. A. Emel'yanov 267
The Stimulating Influence of the Raphé Nuclei on the Morphofunctional Development of the Hippocampus during their Combined Cultivation - A. R. Chubakov, V. G. Tsyganova, and E. F. Sarkisova 271
Electromyographic Investigations of Tremor in Aquanauts during Simulated Immersions - D. T. Filipova 277
The Trigger Role of the Left Cerebral Hemisphere in the Generalization of Epileptic Activity - V. A. Karlov, G. V. Selitskii, and N. E. Sviderskaya 280

Volume 23, Number 4, July-August, 1993

The Interaction of Mediators with the Processes of Protein Synthesis in Neurons of the Visual Cortex in the Goal-Directed Behavior of Cats - V. V. Andrianov 291
The Behavioral Effects of the Destruction of the Magnocellular Basal Nucleus of the Forebrain of Cats - T. N. Nabieva 297
A Spectral Correlation Analysis of the Electrical Activity of the Sensorimotor Cortex and the Medial Geniculate Body in the Presence of a Motor Polarizational Dominant - E. V. Rusinova 303
The Influence of Stimulation of the Hypothalamus on the Choice of Food during Maintenance of Rats on Various Salt and Water Diets - B. G. Gafurov and A. S. Batuev 310
The Dynamic of Thermal Fields of the Brain of Rats in the Late Post-Resuscitation Period under Stress - G. D. Kuznetsova, N. I. Nezlina, A. M. Gurvich, and E. A. Mutuskina 316
The Activity of Krebs Cycle Enzymes in the Visual Analyzer of Rats in the Norm and under Stress - N. S. Lutsenko and V. S. Yakushev 321
The Influence of the Realization of Alimentary Conditioned Reflexes of the Chronic Injection of Leu-Enkephalin and Its Analog Tetrapeptide into the Caudate Nucleus of Dogs - A. F. Yakimovskii and I. V. Bobrova 326
The Influence of Microinjections of Serotonin and Dopamine into the Dorsal Raphé Nucleus on the Extinction of a Conditioned Reflex in Rats - N. P. Shugalev and G. Hartman 328
A Morpho-Functional Investigation of the Interaction of Neurochemical Signals in Neurons of the Cerebral Cortex of Rats - G. G. Khludova, A. A. Myasnikov, and V. F. Lyal'ka 330
Destruction of the Catecholaminergic System in Newborn Rats Impedes the Formation of Cholinergic Innervation of the Neocortex - V. V. Raevskii, Kh. Tegetmayer, and K. P. Budko 333

A Comparative Analysis of Learning and Exploratory Behavior of Rats with Varying Resistance to Stressor Influence and the Level of Brain Monoamines - Kh. Yu. Ismailova, T. P. Semenova, A. E. Fast, G. G. Gasanov, and E. A. Gromova 336
The Neuropharmacological Restoration of Cognitive Functions of Cats Following a Lesion to the Basal Nuclei of the Forebrain (Meynert's Nucleus) - E. I. Mukhin, T. N. Nabieva, and Yu. K. Mukhina 344
Morphofunctional Changes in the Thyroid Gland in Different Variants of Chronic Experimental Stress - R. A. Krasnoperov, V. A. Glumova, V. V. Trusov, S. N. Ryashchikov, S. I. Volkova, L. G. Abramova, and A. V. Pavlov 352
The Features of the Influence of Psychotropic Agents on the Structural-Functional State of the Adrenals of Intact and Stressed Animals - V. I. Kresyun and Ya. V. Rozhkovskii 357
Investigation of Neurons of the Cell Populations of the Nuclei Tractus Solitarius in Rats of Different Sexes - V. G. Sergeev and I. G. Akmaev 361
Localization of Aspartate Aminotransferase in Structures of a Human Sensory Neuron - V. E. Okhotin, S. G. Kalinichenko, Yu. I. Pigolkin, and P. A. Motavkin 364
The Effect of Increased Nitrogen Pressure on Motor Activity and the Intercentral Relationships of the Brain of Monkeys - A. N. Vetosh, É. É. Feigman, O. I. Sharapov, and M. N. Shilina 371
The Possibility of the Use of Interferon in the Treatment of Alcoholism - N. A. Aliev and M. A. Mustafaev 377
The Ultrastructural Bases of the Effect of Haloperidol on the Brain - Yu. S. Maklyakov, N. N. Karkishchenko, É. A. Bardakhch'yan, and N. G. Kharlanova 382

Volume 23, Number 5, September-October, 1993

The Functional Role of an Increase in Cell Excitability and Synaptic Efficiency in the New Cortex during Learning - R. G. Kozhedub 391
The EEG Analysis of the Interrelationships of Structures of the Thalamofrontal System during the Recovery of Conditioned Reflex Behavior of Amygdalectomized Rats - V. D. Sosina 398
Participation of RNA Synthesis in the Process of the Development and Maintenance of Conditioned Reflexes (an Investigation using Antitheines) - O. G. Kulikova, L. M. Belyavtseva, B. A. Reikhardt, G. Yu. Borisova, I. Ya. Aleksandrova, and Yu. S. Borodkin 404
The Dependance of Neuron Reactions of the Sensorimotor Cortex to a Simultaneous Complex Stimulus upon the Level of Differentiation of Its Components - Yu. A. Yunatov, S. N. Perfil'ev, and L. V. Cherenkova 409
The Morphofunctional Characteristics of the Sensorimotor Cortex of Aged Rabbits during the Trace Assimilation of Rhythm - F. V. Kopytova, G. N. Krivitskaya, and Yu. S. Mednikova 419
The Reactivity and Interaction of Neurons of the Cerebral Cortex of Rats in the Presence of the Microiontophoretic Action of Acetylcholine in a Model Negative Learning Situation - Yu. L. Martinson and A. A. Myasnikov 428
The Influence of Exogenous Gangliosides on the Dynamics of the Development of Prolonged Posttetanic Potentiation - N. V. Egorushkina, A. S. Ratushnyak, and I. V. Egorushkin 435
The Reinforcing Function of the Emotions - G. A. Vartanyan and E. S. Petrov 439
The Amygdaloid Complex in the Sex Differentiation of the Brain - I. G. Akmaev and L. B. Kalimullina 449

The Influence of Immune Suppression on the Take Rate and Development of the Human Neocortex Transplanted to the Spinal Cord of the Adult Rat - E. A. Fedorova and V. A. Otellin 455
The Role of Dermorphin in the Regulation of the Processes of Hibernation in Mammals - T. N. Sollertinskaya, É. N. Nuritdinov, and M. F. Obukhova 459
The Influence of Injections of 6-Hydroxydopamine into the Nucleus Accumbens and the Substantia Nigra on the Behavior of Rats - N. B. Saul'skaya 470
An Investigation of the Effect of Amtizol on the Plastic Properties of the Membrane of the Retzius Neutron of the Leech - S. S. Sergeeva 476
The Influence of the Delta-Sleep-Inducing Peptide on Convulsive Activity - A. A. Shandra, L. S. Godlevskii, A. M. Mazarati, A. A. Oleshko, and I. I. Mikhaleva 480

Volume 23, Number 6, November-December, 1993

The Participation of Chlolinergic Systems of the Nucleus Accumbens in the Differentiation of Acoustic Signals in Dogs - K. B. Shapalova and E. V. Pominova 487
The Influence of Chronic Activation and Blockade of the Dopamine- and Enkephalinergic Systems of the Neostriatum on Conditioned Reflex Behavior and Dopamine Metabolism in the Rat Nigrostriatal System - A. F. Yakimovskii and I. V. Karpova 497
The Temporal Organization of the Correlational Association of Neurons of the Cat Motor Cortex - A. G. Galashina and A. V. Bogdanov 503
The Spontaneous Activity of Hippocampal Neurons during the Modulation of Theta Rhythm by Cholinergic Substances - E. S. Brazhnik, O. S. Vinogradova, V. S. Stafekhina, and V. F. Kichigina 510
Neuronal Activity in Suspension Transplants of the Neocortex - A. G. Bragin and V. S. Stafekhina 520
Does the Destruction of Catecholaminergic Neurons in Newborn Rats Influence the Modulator Function of the Cholinergic System? - V. V. Raevskii, Kh. Tegetmayer, and A. A. Trifonov 529
The Influence of Ablation of the Sensorimotor Area of the Cortex on the Spectral Characteristics of the Species-Specific of the Domestic Cat - N. N. Sokolova and E. E. Lyasko 534
Disturbance of Neuroendocrine Regulation of Sexual Behavior of Male Rats with Streptozotocin Diabetes - T. V. El'tseva, E. I. Adamskaya, T. A. Peryshkova, and V. N. Babichev 538
The Topical Organization of Projections of the Nuclei of the Amygdaloid Body, Ventral Tegmental Field, and Substantia Nigra in the Striopallidum of the Cat Brain - A. I. Gorbachevskaya 545
The Ultrastructure of Axospinous Synapses during Functional Reorganizations - S. A. Zueva, I. N. Pavlenko, S. M. Popov, and V. A. Titova 551
Correction of a Disturbance in Visual Recognition in Monkeys with the Aid of an Antioxidant - K. N. Dudkin, V. K. Kruchinin, and I. V. Chueva 557
The Influence of Activation of the Superior Colliculi on Convulsive Activity during Picrotoxin Kindling - A. A. Shandra, L. S. Godlevskii, S. L. Vikhrestyuk, and A. A. Oleinik 562
Comparative Characterization of the Background Activity of Neurons of the Central Cerebellar Neurons of the Awake Cat - É. A. Oganesyan, V. V. Fanardzhyan, and G. S. Frangulyan 568

A Possible Function of Schwann Cells in Neuromuscular Transmission in the Frog - I. M. Vinogradova, M. G. Dobretsov, E. Yu. Bereznikovskaya, O. S. Luchakova, and N. P. Taranova 576

The Role of Permeability to Calcium in the Formation of the Level of Local Blood Supply of the Cerebral Cortex - I. A. Gurbanov, G. I. D'yachuk, and V. F. Maksimuk 580
